

Five Lives Card Game

Number of players 2 - 6 players

PREVIEW

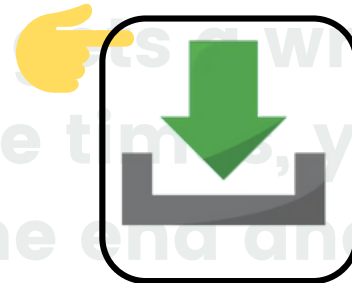

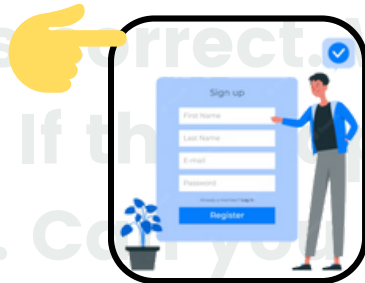

Instructions

Gain unlimited access to a large collection of interactive digital and print Maths resources

In this card game for a group of 2 to 6 students, players start with 5 lives. When it is your turn, play a card from your hand. Each card contains a question with 2 possible answers. You must choose the answer you think is correct. Whoever gives a wrong answer loses a life. If this happens five times, you are eliminated. Carry on until the end and win the game!
