

Translations

Write a rule to describe each translation. One is done for you

1)

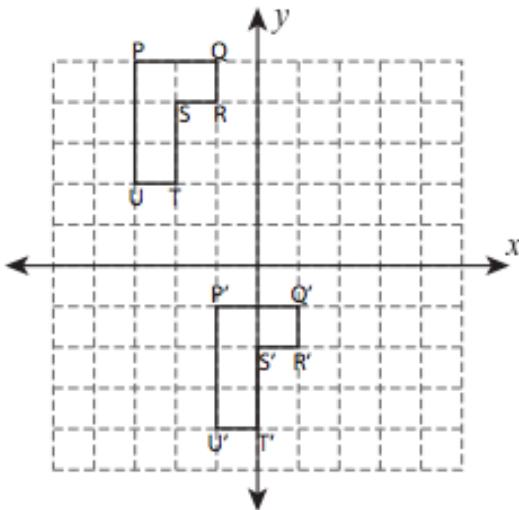

2)

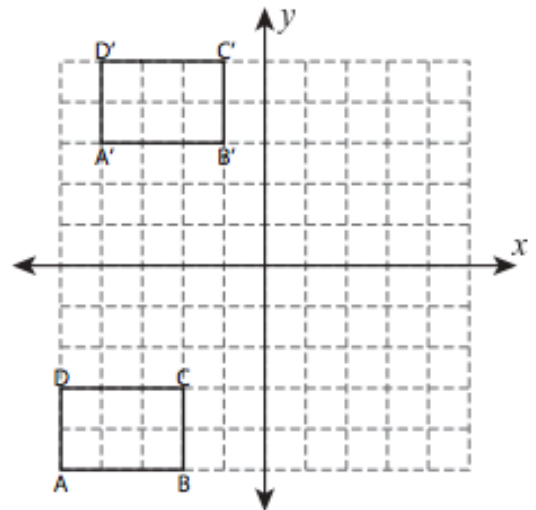

3 units right and 4 units down

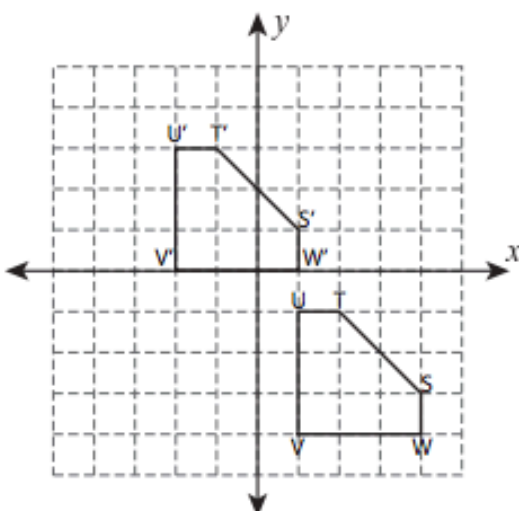

3)

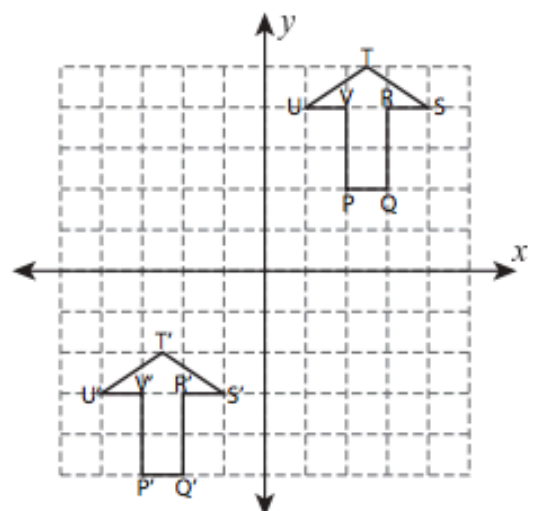

4)

5)

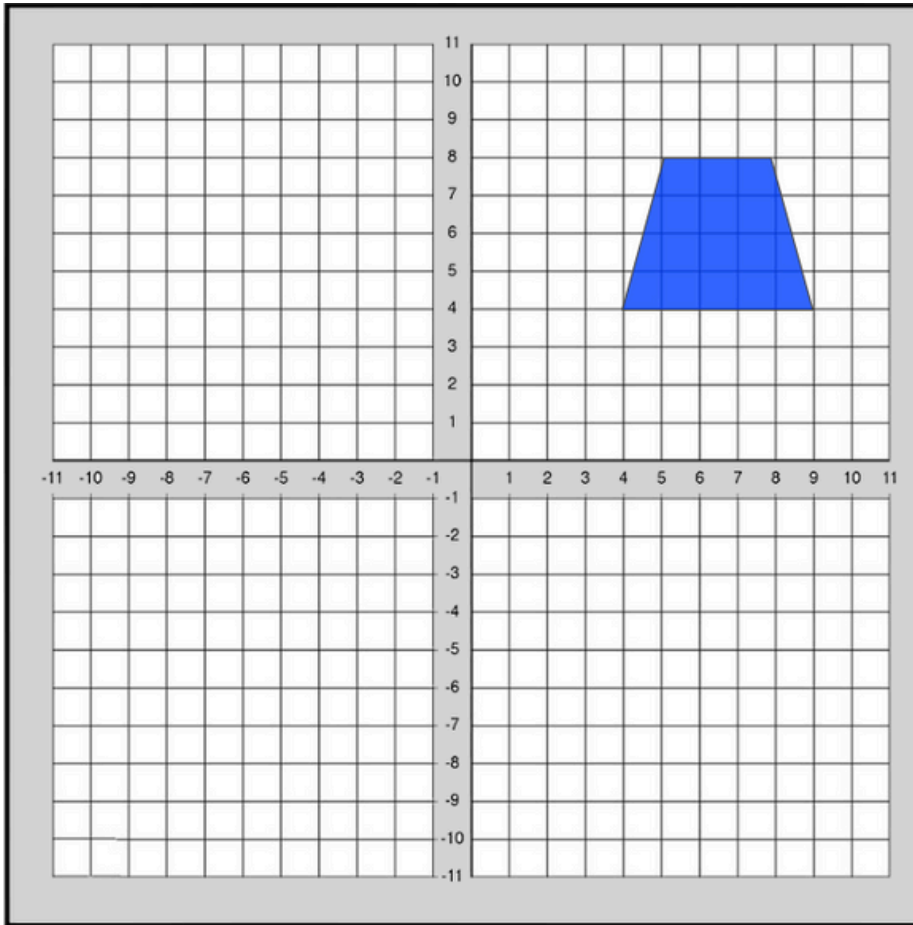

6)

Name: _____

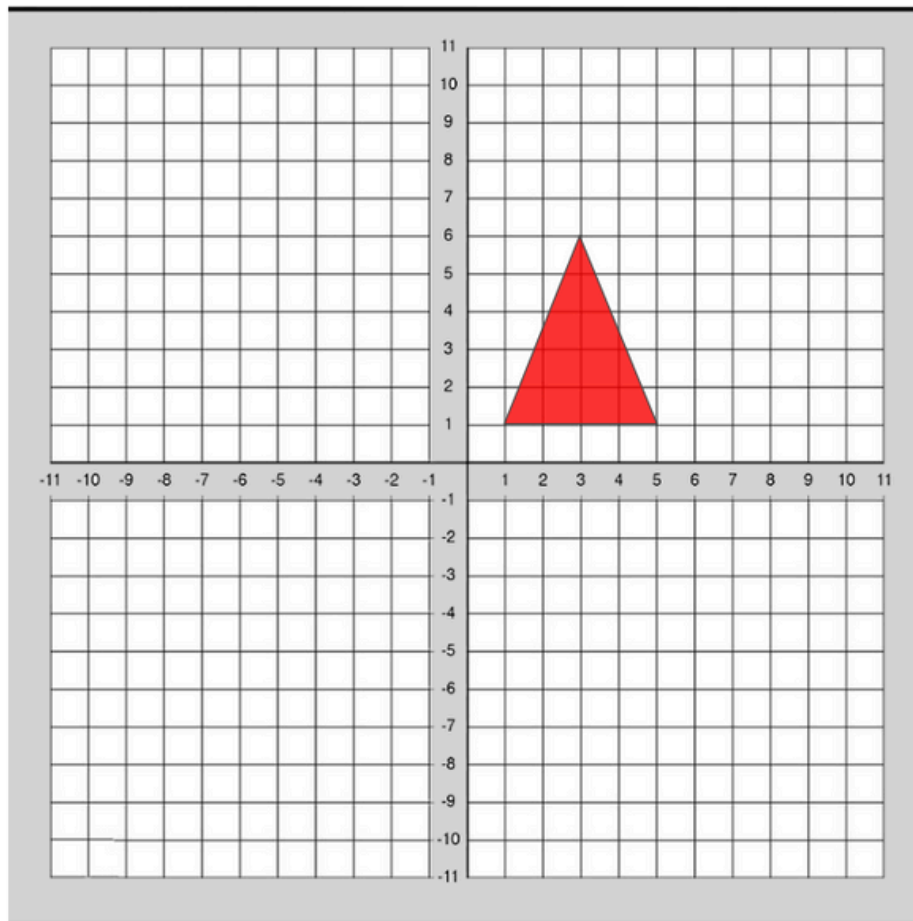

Date: _____

Translations

Translate the triangle four units to the right and then reflect the translated shape in the y -axis.

Which axis will you use as the mirror line?

Translate the trapezium 2 units to the left and then reflect the translated shape in the y -axis.

Which axis will you use as the mirror line?
